you [Music] I'm taking Hornberger president the future of Freedom Foundation and this is episode 27 of my series on the JFK assassination you'll recall that in the 1990s people discovered the existence of a top-secret CIA manual that had been developed in 1953 in the run-up to the CIA's regime-change operation against Guatemala and specifically the democratically elected president of that country there was an assassination list and so CIA was clearly studying the art of assassination and an equally important the art of covering up its role in the assassination and one of the interesting aspects of that manual is that it omits what would naturally be a way of covering up an assassination or a murder that any reasonable person would think about and that would be framing a person I mean that's pretty much standard in terms of cover-ups of roles and murders we know that people are framed sometimes we see it on TV at least but in even in real life and like several years ago the the there was a law enforcement officer in Texas in a little town called Thalia were who framed I don't know several a large number of African Americans on drug offenses you know he took the stand and said I had these drug deals with them and they were denying it they're very poor people and judge or the jury convicted him there were many of them were sent up for long prison sentences for drug dealing and then it was later discovered that this guy had framed them all it was all false testimony and so they had to reverse the convictions and so forth but you know a good frame is where you're setting everything up so that the person that's claiming his innocence can't get out of it that that the frame is too tight and

[00:02:01 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=121s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=121s)

it that that the frame is too tight and and it worked in that case and we also know about you know dropsy cases in the in the drug war we're law enforcement people don't like a guy or they convinced he's a drug dealer but they can't catch him they just drop drugs in in his car or whatever in his house and say oh see I found drugs and then I'm gonna go to trial the prosecutor says you know who you gonna believe it's upstanding police officer of this long-haired drug dealer here and and so that's how they Frank people would drop see cases the drug war so people are framed but interestingly enough framing is not part of this this manual and I mean these people in the CIA are brilliant you know how could they overlook the possibility of framing a person is a way to cover up their role in the assassination and so it caused me to wonder whether they didn't cleanse this manual when it was had to be released in the 1990s remember this is during the time of the assassination records review board which was enforcing the JFK Records Act which was mandating that everybody released their JFK records so I wonder whether they they deleted that because it hit a little bit close to home because remember the accused assassin Lee Harvey Oswald was claiming not only that he was innocent but that he was being framed that's what he meant when he said I'm a patsy now remember the mainstream motive in the warrant commission motive for Oswald supposedly killing Kennedy that he was

a little man trying to become a big man by killing the big man well if that's the case you would think he would be bragging about it you know stand there saying I'm a little man but now I'm a big man because I've killed a big man he doesn't do that instead excuse me he denies doing it I don't know what the what the theory here would be but I guess it would be that he's a little man that wants to be a big man by killing a big man but denying that he did it and then get acquitted and then maybe after the acquittal he says oh I'm the way

[00:04:01 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=241s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=241s)

the acquittal he says oh I'm the way that really did it but double jeopardy prohibits me from from being tried again and so I'm a big man after all well that's possible but it seems to me very complicated and very convoluted and here's the other interesting aspect of this signal you know when a person is accused of a crime and he's innocent he weren't early will just say I didn't have anything to do with this I don't know who did it but I didn't have anything to do with it I'm innocent of this thing Oswald didn't do that I mean he did that but he did something else he said I'm being framed for this I'm a patsy that's what he meant when he says I'm a patsy he meant I'm being framed by somebody which obviously means that in the hours after he was arrested he was thinking thinking thinking what's going on here and he comes up with the the idea that there's a group of people framing him making it look like he has committed this crime now if you were trying to figure out a way to to pin a crime on somebody like an assassination of a president who would be the type of person that you would want to be framing for this well remember this is the Cold War this is the anti-communist crusade this was the the the you know national security state in a cold war trying to protect us from the worldwide communist conspiracy that was based supposedly based in Moscow they were coming to get us and so there was this this obsession with looking and finding looking for in finding communists all in American society I mean that was what the prosecution of Dalton Trumbo and the Hollywood a was all about it was what the Hollywood blacklist was all about you know people with communist leanings or communist affiliations remember that famous question at the McCarthy hearings are you now or have you ever been a member of the Communist Party and if you said yes or if you took the Fifth Amendment your career was over because nothing could be worse than to be a communist during this

[00:06:01 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=361s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=361s)

worse than to be a communist during this period of time and and the CIA and the FBI were both infiltrating the US Communist Party and trying to destroy it even though ordinarily in a free society people have a right to it's found any political views they want I mean that's the essence of a free society no matter how unpopular the views are not during the Cold War you couldn't expose communism because they were coming after you and remember they have the power of assassination now this is what the assassination attempts that they were being made when carbon's was was being targeted or his people in his regime were being targeted they still won't give us the lists of which people were being targeted remember they targeted Patrice Lumumba for assassination and so you know it really wasn't safe for anybody to be a communist during the Cold War at the the u.s. national security state they suspected they were communists in the army they suspected communists in the State Department and you know if you got affiliated with communism your career was in jeopardy I mean they were if your employer happened to be right-wing conservative you were done you were fried you were gone so nothing could be worse than me to be labeled a communist and so obviously the best person to frame is a communist why well because nobody's going to come to his defense nobody's as stupid because if you come to his defense or you just question the official version of this that's framing him that's putting him in that position you will then be smeared as a communist sympathizer and that's exactly what they did when there were some of the early researchers that were questioning the official version of events immediately the CIA start saying Oh communist sympathizer huh huh and that was a strategy because that's you know to be associated with communism that was that was done and and if in fact it actually worked many of the very prominent leftists refused to even get involved in this and

[00:08:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=480s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=480s)

refused to even get involved in this and accepted and swallowed the official story right off the bat and never questioned it never looked back even at this day because you know there's a gradation between a standard liberal progressive socialist communist and many of the leftists are similar associated in our association with communism because it's hard to draw that line between what's a leftist what's a progressive what's the socialist what's a communist in the eyes of many of the right-wingers your standard leftist was you know suspect and remember Martin Luther King he was a civil rights leader he was considered well not considered they knew they both they were convinced that that Martin Luther King and the civil rights movement was the spearhead of the worldwide communist conspiracy to take over America and that part of that conspiracy was to disrupt things here in the United States so but here's the challenge if you're going to use a communist how do you get a communist in the right position I mean you can plan the parade route and you can plan the assassination which is complex in and of it so it's a military operation has got to be planned out it's got to be orchestrated you got to practice it but how do you get the Communists in there you know you go out do a survey of buildings and say who works here and who's a communist and then hope that he works in the building where everything's opportune almost impossible so what's the second best the second best is to find an intelligence agent young intelligence agent who whose public portrayal is that he's a communist and that would be Lee Harvey Oswald now we've already discussed how all the all the evidence and circumstantial evidence that confirms that information that Warren had received that he was sharing with the Commission at the top-secret meeting I mean here's a guy that sent them Iranian how many Communist do you know who are Marines that's not very many I think and why would a communist join the Marines they just killed millions of people in the Korean War and and they could have been called back up to fight communists and kill communism in Korea because the war we

[00:10:01 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=601s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=601s)

communism in Korea because the war we just suspended and they but here's a communist is gonna go kill communists he's learning Russian fluent Russian in the Marines you can't do that without a mentor a tutor or a language school all of which they have in the US military he was studying Marxism openly in the military his buddies are called in Mao's Valle de vich now one of the chances that the US Marine Corps is gonna leave a committed communists in their midst when the whole Cold War is out there finding communists and prosecuting them smearing them and destroying them it goes back to that parallel universe I was talking about earlier and then you know he goes to the Soviet Union and clearly he's going as an infiltrator and and they did have infiltrators they had infiltrators for the Communist Party that infiltrators for the fair play for Cuba committee in it and if you're an infiltrator you got to know your stuff because you're acting like a communist and so you got to behave like a communist you have to convince the Communists that you're more communists than they are so you got to be well-trained you got to study it and that's when what Oswald clearly was doing in the military so he becomes an infiltrator into the Soviet Union which the CIA in the middle carrying the NSA were obsessed with much more obsessed with Russia then that even now you may multiply the obsession with the rest of the day by about a thousand so you know and and the Russia was a totally the Soviet was a totally closed off society so they they get an agent in there to report what are the conditions and so forth well he comes back in essentially red carpet treatment there's no grand jury subpoena there's no treatment like Edward Snowden or John Walker land nothing like that he goes comes to Dallas he works for a photography firm that has top-secret photography for the US government he's mentored by right-wing guidance got intelligence written all over him more and chilled and then he shifted to New Orleans where

[00:12:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=720s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=720s)

and then he shifted to New Orleans where he has these fascinating experiences he goes to work for a right-wing owner of a coffee company the Reilly coffee company I mean this guy was hardcore of the max anti-communist anti-castro and he's gonna hire Lee Harvey Oswald who's supposedly economists he Oswald goes into the offices he is seen going to the offices of guy banister retired FBI agent and then he's got pamphlets that he prints up nobody knows where he got the money to do it that for the fair play for Cuba committee because remember the CIA and the FBI were trying to infiltrate and destroy the fair play for Cuba

committee and Oswald stamps the return addresses Hector's work guy banister the FBI agent is had to have gotten reamed out for that and so he's out on the streets you know pamphleteering for the fair play for Cuba committee and then he tries to tie in the fair play for Cuba committee with the Communist Party in order to smear the fair play for Cuba committee with the Communist Party remember the objective was to destroy these organizations he makes contact with the d-r-e which is a fierce anti-communist Cuban exile organization that was being secretly funded unbeknownst to the Warren Commission by the CIA in fact the CIA kept that secret of not only through the Warren Commission but all through the House Select Committee hearings and the assassination records Review Board and Oswald offers his service to them he says ain't like I've got my Marine Corps manual I'll help you guys against Castro and then the very next day flips again and he's out of the street pamphleteering and he has this altercation with the head of the d-r-e a guy named Carl's bring gear and it's as all that earmarks him a fake fight Oswald gets publicity though and he ends up in jail for disorderly conduct he asked to see a FBI agent of all things and the FBI agent actually goes you know you like an FBI agents really gonna take his time to go visit a communist is in jail for disorderly conduct so he has

[00:14:01 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=841s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=841s)

jail for disorderly conduct so he has Kosmos intelligence agent FBI operating all over now remember what's happening over here with Kennedy Kennedy on June 10th 1963 has thrown the gauntlet down he's an all-out war with the national security establishment over the future direction of America he's had this breakthrough that says this Cold War that the national security state was brought into existence to wage is a bunch of bull it's nonsense is bunk he says it's over it's a racket and so at American University he doesn't consult with the military he doesn't consult with the CIA he doesn't tell them what he's gonna do he just throws it at him it's over Cold War is over and we are going to have normalized relations with the Soviet Union that was throwing the gauntlet down I mean remember general LeMay on the Joint Chiefs of Staff had called Kennedy's resolution of the Cuban Missile Crisis the worst defeat in US history and they considered him like Neville Chamberlain at Munich he was appeasing the communists and then he enters in the nuclear test ban treaty with the Soviets which which was a mathematician the CIA he starts ordering a withdrawal of love thousand troops from Vietnam no they were all advisory troops he was determined not to get America involved in combat but still he was starting to pull the troops out he told aides as soon as I win the 64 election I'm pulling them all out and then worst of all from the standpoint of the national security state he was personally negotiating with Nikita Khrushchev that Soviet premier a lot of people don't realize this personal personal negotiations a letter to letter excluding all the the State Department the military the everything just one-on-one negotiations because Khrushchev felt the exact same thing he experienced the same breakthrough this is a bunch of bull it's getting us too close to nuclear war let's just normalize relations okay we're a communist regime you're a so-called capitalist regime we can still

[00:16:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=960s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=960s)

so-called capitalist regime we can still work together and that was Kennedy's attitude that's his peace speech and it was broadcast all across the Soviet Union first time that had ever been done and then he then he was negotiating with Castro through third-party intermediaries so in fact there was that intimate here in the very day that Kennedy was assassinated who was meeting with with Fidel Castro on behalf of Kennedy so the war was on and so by the time that that that Oswald's in New Orleans clear that he's being positioned he's being postured that he's a communist he's a communist now remember that the truth would only be held by a very small number of people in the CIA because he is very highly compartmentalized so then you know he's shifted to Mexico City where he's obviously instructed to raise this hubbub with the Soviet embassy and the Cuban embassy and communists visiting these things are demanding a visa and so forth and then after all this and they've got this excellent spy network the CIA does down in Mexico City and they've cameras and so forth and so they they they had all this information supposedly and and when he comes back to the United States nothing nothing no alerts no hey this guy's in Dallas the president's coming to Dallas nothing so it's clear that this is a guy who's being positioned now we're talking about a young guy 23 24 years old it's like a second lieutenant in the military he's gonna follow orders you know you ask a second lieutenant to

jump and he'll say how high because you know he wants to be a first lieutenant he wants to be a captain it so you've got this 20-something year old young intelligence agent he's gonna be he's gonna be doing what he's told to do so when he comes back to Dallas and a job becomes available he takes it there at the School Book Depository he's gonna do whatever he's told to do and so he's in the perfect positions now if you look at his actions after the

[00:18:01 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1081s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1081s)

if you look at his actions after the assassination they do not Demark the the look of a person who's just assassinated the president for one thing he supposedly hides the rifle that he supposedly used behind some boxes now pins just shot the president what's the point of taking the time to hide a rifle yeah that's ridiculous you're you're gonna get out of there as fast as you can you're not going to be sitting there trying to hide a rifle because you know they're going to search the whole floor anyway so what's the point of hiding the rifle why are you doing that you're taking valuable seconds away because the police are gonna be swarming and they can lock down that building immediately but if you're framing him you've got to hide that rifle early in the morning got to put it back there and so that nobody that's working in the morning is gonna see it it's got to be planted in advance and so and then Oswald supposedly makes it down in like a Speedy Gonzales down to the second floor so where he'll Allah ganks and buys a soft drink because when the cop came in he's are drinking a soft drink he is that does that look like a guy that's just commit an assassination wasn't breathing hard or anything and then when he leaves the building he takes a bus and if that's not exactly the highest speed way to you know escape an assassination scene and so he gets on he walks for a couple blocks and gets on the bus and the bus is coming back toward the scene of the crime it's so he gets off the bus and he's gonna take a cab home and a woman's gonna wants to use the cab and he goes oh yes ma'am you take the cab I'll get the next one right this is bizarre you know a guy's gonna make a quick escape and he's gonna let the woman have the cab and so then he goes home and he ends up getting a gun and ends up at the Texas theater and so all that's real mysterious no doubt about it but if this is a man who's been told to do this he's

[00:20:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1200s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1200s)

is a man who's been told to do this he's going to do it if he's told in advance of the assassination you were to meet a contact at the Texas theater then he's gonna be there to meet that contact now we don't know what was going on this quite mysterious but here's a possible scenario to contemplate somebody won't share this with me that they tell us well look we're going to infiltrate you into Cuba we need you to assassinate Castro we've had this partnership with the Mafia we it has not been successful we just have not been able to assassinate him but you can get in you can get close to it because you're this communist has been to the Soviet Union so this is gonna be your mission leave all your valuables at home don't tell your wife don't say anything this this is your mission highly dangerous you don't want to do it you don't have to but the president's coming into town and the president's well aware of your your your the great job you're doing with the great job you did the Soviet Union he wants to meet with you and so meet at the Texas theater you'll meet your contact there they will take you to see President Kennedy and then we're gonna get you on a plane we're gonna get you over into Cuba so to me it's a reasonable scenario I mean there's nothing unusual about it given their quest to assassinate Castro and so when when Oswald all of a sudden is arrested by law enforcement officers obviously he would be quite surprised which he obviously was so they they take him into custody at around 2 p.m. now they're 1:00 p.m. Central time now here's the thing when when this when this setup is taking place the the the mindset is that they got to get rid of it I mean they can't afford to have him talk until my hunch is that they plan to kill him at the Texas schoolbook depository silenced him right there instead he gets away and and he silenced a couple of

[00:22:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1320s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1320s)

away and and he silenced a couple of days later now clearly Oswald didn't blow his cover or we don't know that because they didn't record any of the interviews with him but it's likely that he was trying to protect his cover but he kept saying you know I need it when somebody come forward and helped me out with

somebody come forward like he's speaking out to the intelligence community and he says I wouldn't counsel when a lawyer shows up the head of the Dallas Bar Association he says no because he clearly wanted somebody that within the agency that was going to come in release him he still had not dog on him what was going on except that when he says I'm a patsy and hey had to be figuring out what was going on here now okay so how did they do this well remember they have shooters from the front and Oswald's in the back you know does that make any sense now how do we know they have shooters from the front well we have that remember the press conference the dock the Dallas doctors gave right after the assassination where they said he had an entry wound here and then a large wound in the back of his head and remember Sondra Spencer's testimony that she saw the photographs the real photographs of the autopsy showing the big back of the head wound in the occipital region remember the Harper fragment it was occipital bone the witnesses that got splattered in the back all the dowels and treating physicians at the time of the assassination said that he had this huge exit wound which is why they knew they could not save his life there in the back of the head in the occipital region so you know everybody knew there that he had been shot from the front okay so why would you do that if you're gonna frame a guy in the rear why why shoot him from the front well that was the ingenious part of this thing you see this is an assassination of the president so they knew that in an assassination of a president the investigators were going to pull out all the stops this is standard I mean you kill a cop and may their every cop is swarming into the area they're gonna

[00:24:01 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1441s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1441s)

is swarming into the area they're gonna do whatever is necessary to to to catch you or you kill a federal judge or a federal prosecutor or whatever I guarantee you they're not gonna pull any punches of going after you you even if it's if it's illegal you know listening on your lawyers communications wherever they are gonna get you well the same thing applies to a present they're going to pull out all the stops and so the the Potters had to know that so they had to figure out a way to shut down the investigation and that's the ingenious part of this thing so this is what they did they have the shots fired from the front and then what does that mean well they've got Oswald in the rear who no one questions that Oswald was was innocent here I mean that he was guilty I mean they everybody was convinced okay Oswald is is the given that that's a shooter but they've also got shooters from the front so who would his confederates be is clearly now it's a conspiracy because you got a shooter from the back and shooters from the front so who would those Confederates from the front be or one Confederate well there could only be one answer given this set of facts shooter in the back shooter shooters in the front there can be only one reasonable answer it couldn't be his coworkers I mean what what sense would that make he had just started working there recently it couldn't be any friends I didn't have any friends so who would it be it's logical Cardenas I mean this is what the whole deal was going to the Soviet embassy the Cuban embassy this defecting to the Soviet Union there would be no other possibility than those shooters that put that entry wound here and the exit wound over here were communists from the Soviet Union Cuba combination of the two okay so that's the set of facts they're dealing with at this point okay well what does that mean we're talking about water here this is the Soviet Union the cube and the Cuban the Communists who have just killed the president in the Cold War that's an act of war okay what

[00:26:02 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1562s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1562s)

Cold War that's an act of war okay what does that mean that means all-out nuclear war here they had come within an inch of nuclear war during the Cuban Missile Crisis and now here we are we are now facing the very real prospect of Makram work because we can't let him get away with this I mean what are we gonna do just let him kill a president and just drop it that could have done that but here's the kicker it was the so it was the CIA that had started the assassination game okay they were the ones that were out there trying to assassinate Castro in partnership with the Mafia which was the premier private organization that was specialized in the assassination so how do you go to war over an assassination of the by supposedly the Arminius when you're the one that started the game of the of the comm unit of the assassinations it's not not really logical I mean well you go on national television saying they kill the president here the Communists did and so we are here ordering a massive counter-attack on the Soviet Union without mentioning that you were the one that did this and so faced with this set of facts the the ostensible cover here is we can't do this we got

to just Penn the thing on Oswald he did it anyway and drop the rest and by dropping the rest that means no investigation into the rest in other words it's all as well and that's it and that ensures that there's no investigation that's going to lead to the national security establishment and sure enough on the very day the assassination Henry Wade the prosecutor in Dallas County remember this was a state murder case he charged his Oswald with murder as part of a communist conspiracy international communist conspiracy and Johnson Lyndon Johnson telephones him they knew each other Johnson was a native Texan and says get rid of that in that charge immediately

[00:28:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1680s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1680s)

rid of that in that charge immediately what are you trying to do start world war here this is national security get rid of that charge and then the FBI swoops in and starts you know taking control over the investigation no they have no jurisdiction and so waived complies this is national security and so this is what this is where Johnson's role remember John had a double role I mention that early on one get the body out of Parkland without an autopsy and to conjure up the image of nuclear war so now he's doing this with Wayne you can't charge a communist conspiracy this is our bailiwick this is national security stuff and then he when he was talking to Earl Warren to try to convince him to join the kamorin Commission Warren did not want to do this he said I'm on the Supreme Court I'm not going to get involved in these kind of collateral issues here I'm devoting my attention to my job at the Supreme Court jonathan conjures up the image of a nuclear war ii says you owe your country this we're looking at the possibility of 40 million of and dying in a nuclear war now what could he mean by that I mean this is if this is a lone nut how is this lead the nuclear war it was because they knew the shots had been fired from the front and by the shots fired from the front that means a communist conspiracy they had to shut that down to prevent that from happening so that the warran would know his job on this this commission would be just to make it a brief a prosecutors brief that that ties in Oswald and that's it nothing further and then he Johnson does the same thing with her a warrant I've been with the Richard Russell who was another member who said I'm not going to serve on this thing he hated Earl Warren he says I'm not going to serve on any Commission with Earl Warren and Johnson brings up the possibility of World War 3 here so Johnson's bringing up this concept based on the fact that these shots had been fired from the front that leads us to the autopsy which started his whole series remember I told you that by

[00:30:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1800s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1800s)

series remember I told you that by understanding the autopsy you would have a better understanding of the assassination all right well now we're coming back to me to be the assassination to understand the autopsy the purpose of the autopsy is to hide the fact that these two shots were fired from the front to go back and show that they all came from the rear in order to prevent World War three and and so it would have been a no-brainer to get you know a couple of incompetent pathologists which is what they would have wanted so that they could say oh well yeah it was messy but it was because of their incompetence and and and then swear them to secrecy and make them vow that they will follow orders and never reveal it and once a military man makes a vow of secrecy especially directly to the President or to a top official Secretary of Defense or whatever he's never going to break that down never in his life he's going to take it to the grave with him and so it would have been no no difficulty at all to say this is World War three we're looking at you will followers and if you can't follow orders let us know we'll find somebody else and does but your country needs you now your country needs you to hide the fact that these shots were fired from the front so it doesn't mean that the pathologist's were part of the assassination is it means that they were part of a cover-up and doing unwittingly unknowingly thinking that they were serving their country and so that was the whole idea of the fake bogus photographs to show the back of the hand intact it's it's why they were having trouble here with initially with this throat wound that was the genesis of the Magic Bullet theory you have an entry wound here they don't know how to handle this exactly remember that deep state guide tells Colonel Fink don't touch that womb don't even deal with it because they're obviously still trying to figure out what to do and they they finally decide well let's move the shoulder wound up to the back of the neck making it into a magic bullet come back through the front hit Connally go through his ribs break his wrist end up

[00:32:03 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1923s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=1923s)

through his ribs break his wrist end up in his left leg through sort of a zigzag motion and come out totally pristine impossible I mean this this is why they call it the magic bullet or the pristine bullet because the bullet is perfectly intact like a brand-new bullet with just a little bit of Naja's notches on the bottom base of the bullet so this is what they were doing in the autopsy this is the idea of sneaking the body in early now here's a little interesting tidbit that might interest you the the two drivers were for the for the Kennedy limousine where Greer and Kellerman and these are two Secret Service guys now people swear lots of people swear that after the first shot the limousine made a complete stop until Kennedy gets hit in the head and then it takes off there's a broader film which we've discussed doesn't show that it shows the car slowing down but it doesn't show a complete stop and which has caused some people to believe that the film was altered by the removal of frames and remember we discussed how the this the the film ends up in the hands of the CIA on the very weekend of the Sassa nation where they fly to Washington and then they fly it to their top-secret plant in New York in Rochester New York where the CIA photography experts say that plant could do anything and there was no reason for them to send it to that plant because they could watch the film in washing but they've never explained what they were doing up there at that plant but that has caused some people to believe that frames were removed because like I say a large number of people said that car made a complete stop but here's here's a thing - Sun disputed there that Kellerman in the passenger seat he doesn't after the first shot jump over the seat and cover President Kennedy with his body which is his role that's his responsibility remember the job of a Secret Service agent is to give his life for the president he sits there like a bump on the lawn unlike Rufus

[00:34:02 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=2042s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=2042s)

like a bump on the lawn unlike Rufus Youngblood who was with Johnson he immediately jumped over his seat and when he heard the shots and put himself over Johnson or remember Clint Hill who was rushing to try to get to the Kennedy limousine grabs onto the end of it pushes Mrs. Kennedy into the rear immediately covers the president in case there any more shots Kellerman sat there like a bump of the law no the reason this is interesting is because if we then go to Bethesda where the where the autopsies taking place these two guys Greer and Kellerman are part of the body switching episode remember they after they snuck the body in and and they got it into the more early 6:35 p.m. they they had to get the body back into the Dallas casket in order to bring it into the front of the building for its official entry well guess who was orchestrating that body switching and putting it back into the Dallas casket that would be Greer and Kellerman so they BAM some interesting that an interesting day on the assassinations now here's the other interesting twist to this that when they have this story that the you know prospect of World War 3 and so for a nuclear attack remember we've talked about Johnson lollygagging and stuff at Parkland at the airport Dallas Love Field where it's clear that he did worry at all that this was a nuclear attack by the Soviet Union if they had killed Kennedy and Oswald at the School Book Depository then they could have argued that they were doing this because they had this communists in custody and that they they were trying to protect against you know this possibility of nuclear war however because Oswald wasn't arrested for an hour so that is before they could

[00:36:00 \(https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=2160s\)](https://www.youtube.com/watch?v=7d0Vct5H9LQ&t=2160s)

for an hour so that is before they could determine if he was a communist the world war 3 scenario doesn't really pan out for them because remember the fraudulent autopsy scheme is launched immediately when President Kennedy is declared dead that's at 1:00 p.m. and that's before they have the Communists in custody and questioned and determining that he's a communist so they've launched the plan early so they can't say well we thought we were doing the right thing for the country here because at that point they don't know whose it presumably don't know who's committed the assassination so the the World War 3 scenario doesn't work in terms of how they're they constructed this thing but it worked after they got to Washington and they start developing this scenario of oh my gosh this is going to lead to World War 3 because if by this time Oswald's been taken into custody and then of course later died and that's how they tied in with his confederates but at the moment that the the whole autopsy scheme is launched put into play where

Johnson's ordering presumably ordering the Secret Service team to get that body out of Parkland at all cost and getting their hands in the military it's 1:00 p.m. before they've had a chance to even question Oswald's bring him into custody that's how they pulled off this remarkable brilliant and cunning scheme you [Music]

END
